Features & Benefits:

The MGE-SLK3 is a high-performance LED shadowless surgical light designed in a butterfly configuration to meet the demanding needs of modern operating rooms. Certified by the European CE and SGS, this surgical light integrates advanced LED cold light technology with energy efficiency, low radiation, and enhanced surgical visibility.

This model offers consistent color temperature, long-lasting LED bulbs with up to 80,000 hours lifespan, and a unique four-mode illumination system. The multi-joint spring-balanced arm allows precise positioning with fatigue correction and adjustment memory, ideal for long surgeries. Its aerodynamic, laminar-flow-friendly design minimizes turbulence in the operating room.

Key Features:

- **CE & SGS Certified:** Compliance with international safety and quality standards.
- **Advanced LED Cold Light Source:** No IR or UV radiation, low heat, no tissue damage, promotes faster healing.
- **Adjustable Color Temperature:** 3500K to 5500K, closely mimics natural sunlight.
- **Four Illumination Modes:** One-click switch between Surface, Endoscope, High Brightness, and Normal mode.
- **Digital Memory Function:** Automatically restores previous brightness settings upon reboot.
- **Dual Control Brightness Adjustment:** Easily change intensity via keypad and disinfection handle.
- **Butterfly-Shaped Lamp Head:** Optimizes shadowless performance with multiple LED arrays.
- **Anti-Fatigue Arm with Positioning System:** Long-lasting spring-loaded arm with precise control.
- **Shadow Compensation System:** Automatically increases light when parts are blocked.

Technical Specifications

Item	Parameter
Origin	China
Model	MGE-SLK3
Lamp Type	LED700 + LED700 (Dual Head)
Illumination (Adjustable)	40,000 – 160,000 Lux
Color Temperature	3,500K – 5,500K (adjustable)
Color Rendering Index (CRI)	≥95
Illumination Depth	≥1500 mm
Light Spot Diameter	200 – 260 mm
Brightness Control	10% – 100% stepless
Number of LEDs	73 pcs per head
Power of Each LED	1W × 73
LED Lifespan	≥80,000 hours
Temperature Rise at Head	＜1 ° C
Input Voltage	AC100–240V, 50/60Hz

Standard Configuration List

Component	Qty
LED700 Lamp Head	2 units
Rotating Arm + Fixed Base	1 set
Spring-balanced Arm	2 sets
Power Supply	2 units
Disinfection Handle	4 pieces
Allen Wrench Set	1 set
Installation Bolts	1 set
Lower Shield Holder	1 unit
Upper Shield	1 unit
